INTRODUCTION

WELCOME TO MEDINA HIGH SCHOOL

Just as you choose your classes each year, you should also examine extracurricular options and decide which best suits your needs and interests. The Medina High School Activities Guide is a comprehensive overview of all the school sponsored clubs, activities and sports offered throughout the year. Detailed descriptions which include a contact person, fees, approximate time commitments and scholarship activities are listed when available for each activity. This booklet has been developed with the direct help of the advisors, head coaches, and assistant coaches of the various clubs and sports. Make sure you do not overcommit yourself; often students find themselves overwhelmed by the increasing demands of high school academics and extracurricular responsibilities. For example, you may have played two sports and been involved in student council in middle school but now find that you no longer have the adequate time to keep up your grades with the demands of practice, after school meetings, and increase in homework. Remember the most important job over your high school years is as a student. Be realistic about your other commitments before you sign-up for a new one.

There’s no doubt about it, when looking at being admitted into a college, extra extracurricular activities are part of the admissions review. Residential colleges depend on an involved student body and admissions officers are very interested in how applicants have spent their nonacademic time.

The strength of your high school curriculum and the grades you earn are the two most significant factors in your application to any college. The ways in which you have used your time are important criteria, after course selection and grade point average.

What colleges like to see on a student’s high school record is sustained involvement in a few well-chosen activities, ideally leading to some leadership capacity in either the junior or senior year. Colleges take a dim view of the cafeteria-style method of selecting activities; a few activities your freshmen year, different activities your sophomore year, more your junior year and yet different ones your senior year with no commitment to any of them. By the time a student is in the latter years of high school, he should demonstrate a strong and deep commitment to a few activities. The student who has risen to the first chair as a violinist, is co-head of the environmental club, and has tutored math for three years will be a more appealing applicant than someone who claims membership in a dozen clubs yet gives no appearance of any significant contribution to the school or community.

Bear in mind that participation in school and community activities should begin early in your high school career. Colleges are not impressed with students who only become involved their senior year in order to have activities to list on their applications.

Choose your activities wisely, talk to others who have participated in the club or sport, involve your parents in your decision and pay attention to time commitments. Overextending and adding stress is not the idea of extracurricular activities. Enjoy your high school years, you only get one chance!
• A fee will be charged for each sport and extra-curricular performing art at the middle school and high school level per attached list.
• There is a per student cap/family cap on extra-curricular activities (athletics and performing arts) pay-to-participate fees. For the 2019-2020 school year, the per student cap on extra-curricular activities (athletics and performing arts) pay-to-participate fees will be $660.00 at the high school level and $250.00 at the middle school level. The family cap on extra-curricular activities (athletics and performing arts) for the middle school and high school level will be $990. The per student cap is reset each school year. Therefore, per student cap qualification is only for extra-curricular activities (athletics and performing arts) that take place during a given school year.
• Participation fees for all extra-curricular activities (athletics and performing arts) are due one week prior to the first contest/activity/performance. Failure to pay will result in exclusion.
• Participation fees for middle school and high school are to be paid in the main office at each School.
• No refunds will be granted to students who become academically ineligible; students removed for disciplinary reasons, or for students who quit the sport/activity after the fee has been paid.
• If a student sustains a season ending injury and is unable to play (doctor's note required) a refund will be pro-rated.
• There are no guarantees of participation/playing time.

HUDDLE
Helping Us Develop Dedication, Leadership & Enthusiasm

SHUDDLE
Still Helping Us Develop Dedication, Leadership & Enthusiasm

Contact Person:  Mr. Ron Blue  
bluer@medinabees.org

Selection process eligibility:  The HUDDLE/SHUDDLE leadership program consists of highly qualified, well-established teen role models who have taken part in a very selective application process. Students MUST be tobacco, alcohol and other drug-free, be involved in school and/or community activities, have average or above average grades, be comfortable talking in front of groups, and have an interest in mentoring and supporting younger students. 3.0+ cumulative GPA is recommended.

Acting as role models and presenting classroom lessons designed to build resilience by increasing self-esteem and confidence, the HUDDLE (4th grade) and SHUDDLE (5th grade) leaders strive to present alternatives to tobacco, alcohol, other drug use and violence for the elementary school students.

Applications are accepted in February for the following year. Staff evaluations and group interviews are required and take place in March/April. The HUDDLE and SHUDDLE teams are announced in early May. This is a highly competitive program as typically there are more high school students applying for the program than there are spots available. Unfortunately, not all who apply will be selected. Although juniors can apply for the following year, priority will be given to sophomore applicants because a long-term commitment is preferred. This program should not be used merely to “build a resume,” but rather to develop leadership skills.

Meeting/practice times:  Required full-day training for all new members and one partial day training for all returning members is in early summer. Meetings are scheduled monthly, usually one week before each lesson. Members, in teams of three, visit the elementary classrooms once each month. This usually necessitates leaving the high school one or two periods early on the day of the lesson.

Estimated total time commitment per week/month:  Depends on preparation time needed for lesson plans, however, a minimum of five hours per month due to monthly meetings and monthly lesson presentations.

Cost:  This program is generously funded by the Medina City Schools Foundation; however, a $10 activities fee supplements the grant.
Average Number of Participants: Approximately 70 HUDDLE members and approximately 72 SHUDDLE members; it varies depending on the number of 4th and 5th grade classrooms in Medina City School District and St. Francis Xavier School.

Requirements to maintain membership: Members must abide by a 12 month contract which they and their parents sign in May. Members must remain totally drug free, must have behavior appropriate for positive role models, and must attend all scheduled activities and meetings. Violation of contract or two unexcused absences from scheduled events may result in removal from the program.

An inability to meet program commitments and deadlines may also result in removal from the program. Lack of lesson preparation and a less than enthusiastic attitude will be noted in the classroom so the leaders must be at the “top of their game” when presenting to their young students. Classroom teachers evaluate teams monthly to assure quality.

Scholarship opportunities: The Jennifer Stickney Memorial Scholarship is usually awarded to a graduating senior who is a HUDDLE/SHUDDLE member.

Leadership positions/selection: This is a leadership/mentorship program. Members have the opportunity to develop leadership skills as they serve as role models for youth.

PHILOSOPHY OF THE MEDINA ATHLETIC DEPARTMENT

The athletic department consists of all interscholastic sports and cheerleaders in the Medina City School District. The department is headed by an athletic director who works closely with the building principals and coaches to bring about an athletic program that is commensurate in coaching and school philosophies.

Although the department consists of both middle and senior high students, the program should show evidence of articulation from one level to the next. There should also be a philosophical carry over from one sport to the next. In so doing, it is important that the head coach of each sport work with the athletic director and building principals.

The Medina City Schools recognize athletics as one of the many educational experiences provided for youth during their school years. The athletic program strives to contribute to the optimum development of participants as individuals. It also serves an important tool for developing desirable behavior patterns and attitudes. Athletics in Medina are a means to the end of developing well-rounded individuals. Medina athletics are never an end in themselves.

PHILOSOPHY OF SPORTSMANSHIP

Medina also believes in the values of sportsmanship and strives to promote it among the coaches, athletes, and spectators. As members of the Greater Cleveland Conference, we believe that we should conduct ourselves at all times in a way befitting true sportsmen, realizing that we must be governed by the ethics of honest rivalry and graceful acceptance of results. We urge all supporters of our respective teams to enjoy the game as we do and to do it in a way that will bring credit to our schools, our teams, our league, and our country.

PHILOSOPHY OF WINNING

The varsity level programs, in addition to the above, also stresses winning. It should provide opportunities for those athletes that have the potential to play at the varsity level with the understanding that this level demands the highest level of talent within the school community.

The junior varsity program balances winning and participation. Players with varsity potential will be awarded playing time first, recognizing that players develop physically and tactically at different speeds.

The freshman team will allow each player an opportunity to play and demonstrate their skills.

The middle school programs emphasize learning and participation.

The Boosters Club consists mainly of dedicated, enthusiastic parents, coaches and community members willing to volunteer their time and efforts to further Medina athletics and organizations in a variety of ways. Such events include fundraising projects, community events focused on enhancing spirit and community pride for Medina athletic programs, as well as membership drives with proceeds benefiting student athletes and organizations.

The Boosters welcomes and encourages the vital input, ideas and suggestions of new and existing members. Membership is open not only to parents of Medina City School students but to adults, MHS alumni, as well as businesses and corporations in the community wishing to support the efforts of the Boosters. A variety of Booster membership levels are available and begin at the $25 patron level.

The Medina Boosters can be emailed at boostermembership@medinabees.org. Sports, membership, advertising, meeting dates and email subscription information can be viewed at www.medinaboosters.org.

Traditionally, the Boosters have worked with the Athletic Department to purchase uniforms (on a rotating schedule) for each school sports team. The Boosters have developed additional fundraising efforts that encompass coach and Athletic Department requests for student athletes such as scholarship and recognition awards for MHS athletes qualifying for state level competition.

The Boosters’ mission is to work closely with the Athletic Director, the Athletic Department and the school district administration, with the support of coaches, in an effort to develop and maintain a quality, interscholastic athletic program.
This booklet has been developed with the direct help of the advisors, head coaches, and assistant coaches of the various clubs and sports. The individual sections reflect the rules and philosophies of the advisor, head coach and the coaching staff for that sport at the time the information was submitted for printing.

As the head position changes then too will the information for that sport.

All changes should be directed to
